

## VETERAN

# PROFILES OF SUCCESS

---

### Robert “Bobby” Woodson

US Army

Hiring Company: **SKY Climber**

Class: 20- Day Comprehensive

Wind Turbine Technician

Graduated 4/29/2011

**R**obert Woodson, an Army veteran who found himself unemployed and homeless on the streets of skid row in Los Angeles, is one of our many success stories. Thanks to the efforts of AADAP, a local non-profit group, Woodson received a scholarship to Airstreams Renewable’s 20-Day Comprehensive Wind Turbine Technician Class. He graduated on April 29, 2011, having already secured a job with **Sky Climber Wind Solutions**, a major provider for wind turbine maintenance, the week before he graduated.

Through U.S. Vets, all veterans attending ARI, including Robert Woodson, receive gloves, jackets, boots, and sweatshirts upon coming to the school. ARI boasts an impressive 88% job placement rate for veterans and an overall rate of 78%.

Robert is currently working in Nebraska where the picture above was taken. Robert recently stated *“Out in Nebraska working for a great company “Sky Climbers Wind Solutions””. Got an awesome crew too, thanks Grant and all of my instructors @ Airstreams that trained me to WIN. Class of 4-29-11”*.
