

VETERAN

PROFILES OF SUCCESS

Greg Welty

US Army National Guard
Hiring Company: **US Army**
Class: 20- Day Comprehensive
Wind Turbine Technician
Graduated 2/04/2011

Greg Welty was a proud member of the U.S. Army National Guard for 20 years, during which time he was deployed twice. He is also a member of Cal Dive as a commercial diver.

After retiring from the military, Mr. Welty, was unemployed and not sure of how to transfer his military experience into a civilian career. With the help of Veteran's assistance groups, such as U.S. Vets, Greg applied to Airstreams Technical Institute and received a grant to attend the 20-Day Comprehensive Wind Turbine Technician class.

Shortly after graduating, Mr. Welty was offered a job with **Siemens Energy**, one of the largest and most reputable wind energy companies in the industry, ranked #22 on the Forbes Fortune Global 500 List.

Despite the incredible job offer at Siemens, Mr. Welty decided to merge the safety and technical knowledge he received from Airstreams with his love for the military and is now a wind turbine technician with the United States Army. He now has the best of both worlds!
